Overview of JPM Information Systems Organization

Mission:

Responsible for providing the information architecture and applications for shaping the battlespace against the Chemical, Biological, Radiological and Nuclear (CBRN) threat

Vision:

Provide the Warfighter with the most effective integrated early warning capability; a cutting-edge DoD accredited CBRN hazard prediction model; and state-of-the-art biosurveillance situational awareness, collaboration, and analysis tools resulting in optimized decision support capability for Commanders across all operational levels from the tactical to strategic as well as bridging the interoperability gap from DoD to Interagency

Uniquely suited to provide Joint Service CBRN capabilities based on our experience in modeling and simulation and

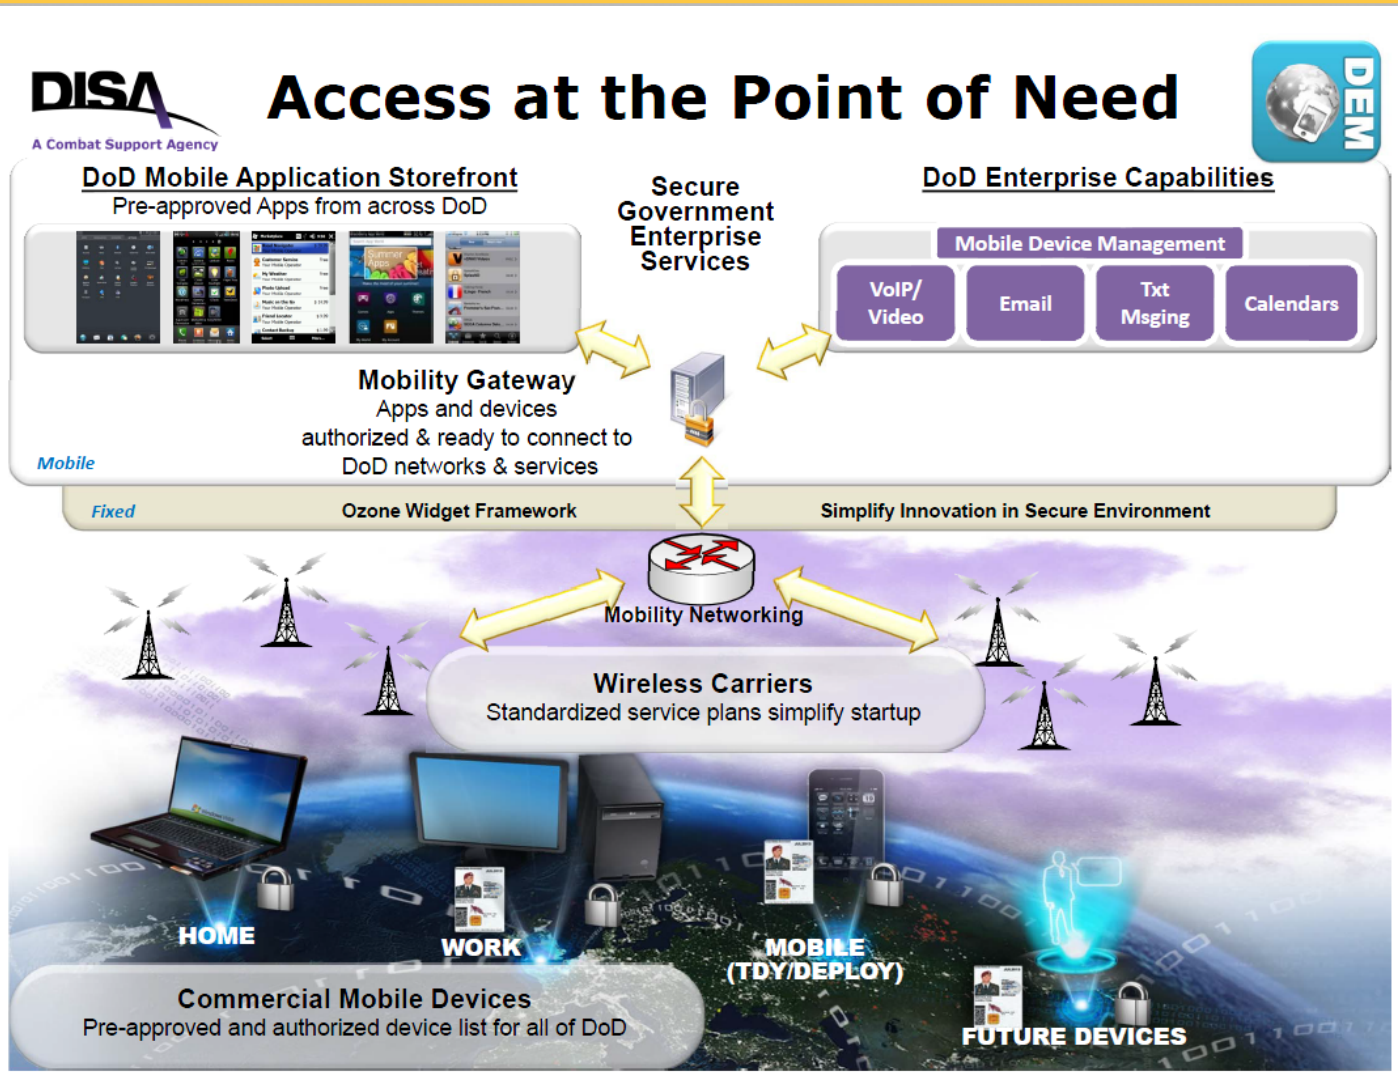
CBRN Information Systems

- **Objective: Provide an "End-to-End", easily accessible set of CBRN Enterprise capabilities through web services utilizing Service Oriented Architecture (SOA)**
- **This strategy will leverage:**
  - **CBRN Hazard Awareness and Understanding**
  - **Joint Information Environment**
- **Benefits:**
  - **Reduce total cost of ownership**
  - **Reduced cost of test**
  - **CBDP customers can access information resources from any authorized IT device from anywhere in the world**

Joint Information Environment (JIE)



Capability Sets and Acquisition Strategies should be shaped to leverage the JIE/JOC
